Advantages of flexible Emos endoscopes

Modern design

Made in Germany

Brilliant image representation

High-quality components „made in Germany“
High depth of field and homogeneous illumination

Stable guiding element

Increasing lifetime due to innovative construction method

Robust shaft

Very good material resistance during the preparation process

Focusable

Optimal image setting through the ergonomic focusing ring

Standard eye piece

for camera application. Compatible with different camera TV coupler

Universal light guide / cable connection

Compatible with adapters from different manufacturers.

Advantages of Emos optics

Sapphire negative & sapphire window

Solded sapphire negative and sapphire window
advantages: no glue, no leakage and no scratches

Locking

Compatible with sheaths from different manufacturer
advantages: easy combination with your existing equipment

Autoclavable

134°C / 273 °F / 2,3 bar / 21 min

Material

Complete made from stainless steel for high corrosion resistance

3-tube-system

Optic system is additional protected

Laser welding

Trough the laser welding absolutely sealed

Image quality

HD image display in real reproduction of the colors and tissue structures

Image quality

High-resolution, vignetting-free and distortion-free image quality in 4K

ADVANTAGES OF FLEXIBLE EMOS ENDOSCOPES

Good to know
